Manufacturing Intelligent Solutions

## PIPELINE PIGGING SOLUTIONS

Maximize the efficiency and longevity  
of pipeline infrastructure.

### PIG VALVE BENEFITS

- Remove Harmful Debris
- Prevent Corrosion
- Reduce Emissions
- Improve Productivity
- Enhance Operating Safety
- Pig Previously 'Unpiggable' Lines

API Spec. Q1 | API 6D | ISO 9001:2015

*The Argus Pig Valve & Multi-Pig Launcher offer a reduced footprint compared to traditional barrel launchers. Minimal line modifications are needed when installing to an existing operation.*

## Pigging Valves

- + Sizes 2" - 20"
- + -50°F to +250°F (-46°C to +121°C)
- + 150 to 1500 ASME Class
- + API 6D Valve
- + Easy Installation to Existing Lines

## Multi-Pig Launchers

- + Sizes 2" - 20"
- + -50°F to +250°F (-46°C to +121°C)
- + 150 to 1500 ASME Class
- + API 6D Valve
- + Up to 11 Pig Capacity
- + Automated Remote Launching
- + Perfect for High-Frequency Pigging

## HIPSM™ High Integrity Pigging Safety Module

- + True Double Block-and-Bleed Safety Integrity
- + Soft or Metal Seated Isolation Valves
- + Bubble Tight Soft Seated Pig Valve
- + Drain & Bleed Valves Provided
- + Pig Signaler Included

## Pipeline Pigs

- + Sizes 2" - 20"
- + Urethane Cup & Disc Style
- + 60, 70, 80, or 90 Durometer
- + Compatible with Steel  
Alternative Pipelines
