CORE THREADING CAPABILITIES

Argus provides API and premium threading services for casing, tubing, drill pipe, and accessories. We are Canada's largest premium threading license holder, with authorization from over fourteen licensors and more than one hundred licensed and proprietary thread profiles. Our facilities handle OCTG full-length premium and API threading up to 20 inches in diameter. Certified to API-Q1 and ISO 9001:2015, we combine decades of experience with modern machining and inspection equipment to meet exacting industry demands.

Service Offerings

OCTG & Downhole Tubulars

Full-length threading for casing, tubing, and drill pipe up to 20" OD and range-3 length.

Swaging and stress relieving capacity up to 13³/₈".

Coupling Manufacturing

Dedicated manufacturing space for high-volume coupling manufacturing.

Accessory Threading

Threading of accessories, pup joints, and related components.

Inspection, Repair, & Torque Services

Coupling installation up to 16" OD with computerized monitoring.

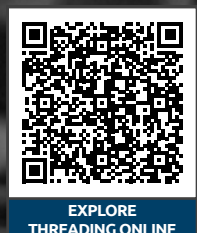

End Finishing & Accessories

Zinc and Manganese phosphate coating.

Abrasive blasting for OCTG, drill stem, and threaded components.

Pipe Yard Support

14 acres of storage capacity, as well as handling services before and after threading operations.

API THREADING

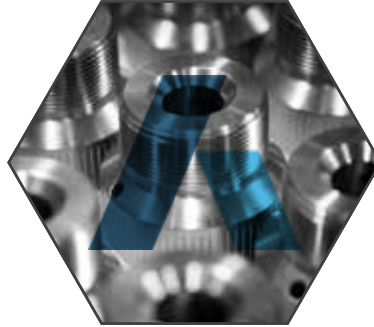

Argus provides API threading and manufactures products to API-Q1 and ISO 9001:2015 standards. Our team supports full-length threading of casing, tubing, drilling equipment, and accessories, ensuring consistent results across every API specification.

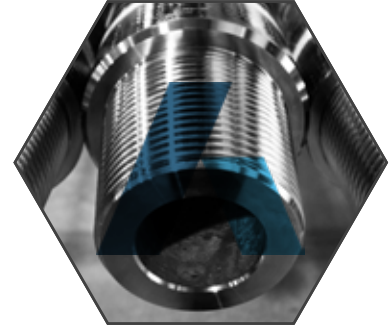

Supported API Specifications

API 5CT
Casing and Tubing

API 6A
Design and Manufacturing

API 7-2
Rotary Shouldered Connections

API CONNECTIONS

8-Round Long Casing (LC)	8-Round Short Casing (SC)
Buttress Casing (BC)	External Upset Tubing (EU)
Full Hole Rotary (FH)	Integral Joint Tubing (IJ)
Non-Upset Tubing (NU)	Regular Rotary (REG)
Numbered Connection Rotary (NC)	Internal Flush (IF)

PREMIUM THREADING

Argus is the largest premium threading licensee in Canada, authorized by over fourteen organizations to provide premium and proprietary threading services. Our equipment supports threading on accessories, the manufacture of couplings, and full-length threading of tubing and casing up to a maximum 20" diameter.
